DETAILED ACTION

Response to Amendment

Examiner acknowledges Applicant's election of group II including claims 25-27, 29, 30-31, 32-38 and 49-51 in the reply filed 10/18/2006. Claims 1-23, 25-31, 39-48 and 52-62 are withdrawn from consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected group, there being no allowable generic or linking claim.

Upon further consideration a further election restriction is set forth in this office action (see below).

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 25-26, 29-31 and 49-51, drawn to medical device formed of a specific composition polymer, classified in class 428, subclass 35.1.
- II. Claim 27-31, drawn to medical balloon, classified in class 606, subclass 192.
- III. Claim 32-38, drawn to multiplayer polymeric device, classified in class 428, subclass 36.91.

Inventions I-III are directed to related inventions. The related inventions are distinct if the (1) the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect; (2) the inventions do not overlap in scope, i.e., are mutually exclusive; and (3) the inventions as claimed are not obvious variants. See MPEP § 806.05(j). In the instant case, the inventions as claimed have a materially different design of a single layer multi-

component varying polymer, a multi-layer multi-structure medical device and a polymeric medical balloon with specific structure and shape. Furthermore, the inventions as claimed do not encompass overlapping subject matter and there is nothing of record to show them to be obvious variants.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
